Set for control of 3 lamps

Product description

FEATURES

Set includes: 1pc. AQCT-2, 1pc power supply, 3pc. AQCT-SUPPORT

The SKYLIGHT AQCT-SUPPORT controller allows multiple aquarium luminaires to be connected and controlled with one SKYLIGHT controller: the AQI-, AQIR- and HYPERSPOT- series. In addition, it is compatible with plant terrarium lamps from the TINY-, PR-, PRI- and MID- series.

The number of AQCT-SUPPORT controllers needs to match the number of power adapters, that are used in the system.
